

Combi 202

Combi removes complex deposits with oil, rust and limescale in one single cleaning process.

Degreasing, descaling and derusting properties in one product. Our Combi products efficiently removes oil, dirt, rust and limescale in a single step.

Optimized performance for efficient CIP (Cleaning In Place) of both oil and water borne systems. The products are based on Bio Gen Active®, environmentally optimized surfactants and mild fruit acids. Effective and gentle cleaning to skin, materials and the environment.

APPLICATIONS

- **Oil separators**
- **Heat exchangers (mixed deposits)**
- **Air charge cooler**
- **Piping**
- **Oil preheaters**
- **Flue gas condensers**
- **Cooling systems with glycol remnants**
